VOLUME 78: SUBJECT INDEX

Abducens nerve lesions, Bilateral abducens nerve lesions in unilateral type 3 Duane's retraction syndrome, **588**

Acetazolamide
- Extravasation of acetazolamide: *letter*, **731**
- Reduction of macular oedema by acetazolamide in patients with chronic iridocyclitis, **4**

Acinetobacter, *Acinetobacter* exposure keratitis, **489**

Acyl ester prodrugs, Studies on a novel series of acyl ester prodrugs of prostaglandin $F_{2\alpha}$, **560**

Adenoma, Adenoma of the pigmented ciliary epithelium, **484**

Adrenaline, Intraocular adrenaline maintains mydriasis during cataract surgery, **95**

AFDX-116, Muscarinic receptor M1 and M2 subtypes in the human eye: QNB, pirenzipine, oxotremorine, and AFDX-116 in vitro autoradiography, **555**

Age-related macular degeneration
- Interferon alfa-2a modifies the course of subfoveal and juxtafoveal choroidal neovascularisation, **749**
- Low glutathione reductase and peroxidase activity in age-related macular degeneration, **791**

Aging, Retinal pigment epithelium: lysosomal enzymes and aging: *editorial*, **82**

Aicardi syndrome, Aicardi syndrome – the elusive mild case, **494**

AIDS
- Aggressive orbital lymphoma in AIDS, **319**
- Bilateral angle closure glaucoma and accelerated cataract formation in a patient with AIDS, **656**
- High dose intravitreal foscarnet in the treatment of cytomegalovirus retinitis in AIDS, **120**
- Management of cytomegalovirus retinitis in AIDS: *perspective*, **66**
- *Pseudomonas* conjunctival ulcer and secondary orbital cellulitis in a patient with AIDS, **72**
- Retinal findings in Malawian patients with AIDS, **757**
- Treatment of cytomegalovirus retinitis with intravitreal injection of liposome encapsulated ganciclovir in a patient with AIDS, **677**
- Visual loss in AIDS patients: *letter*, **511**

Albendazole, Oral albendazole in the management of extraocular cysticercosis, **621**

Albinism
- Carrier detection in X linked ocular albinism using linked DNA polymorphisms, **539**
- Ocular albinism with unilateral sectorial pigmentation in the fundus, **412**
- Ocular motor behaviour of monozygotic twins with tyrosinase negative oculocutaneous albinism, **349**

Alpha$_1$ antitrypsin deficiency, Corneal ulceration in a patient with α_1 antitrypsin deficiency, **653**

Alport's syndrome, An electrophysiological study on children and young adults with Alport's syndrome, **44**

Amblyopic eye, Two step recovery of vision in the amblyopic eye after visual loss and enucleation of the fixing eye, **506**

Amphotericin B, Fungal keratitis caused by *Scopulariopsis brevicaulis*: successful treatment with topical amphotericin B and chloramphenicol without the need for surgical debridement, **730**

Analgesia, Effects of morphine on corneal sensitivity and epithelial wound healing: implications for topical ophthalmic analgesia, **138**

Angle closure glaucoma, Bilateral angle closure glaucoma and accelerated cataract formation in a patient with AIDS, **656**

Anterior chamber aspirates, Lack of effect of preoperative norfloxacin on bacterial contamination of anterior chamber aspirates after cataract surgery, **772**

Anterior chamber flare, Changes in anterior chamber flare and cells following cataract surgery, **91**

Anterior segment ischaemia, Anterior segment ischaemia following segmental scleral buckling, **409**

Anti-misting agent, Acute corneal erosion from the use of anti-misting agent in swimming goggles, **419**

Antimicrobial effects, An antimicrobial effect associated with rabbit primary aqueous humour, **142**

Antisepsis, Antisepsis in ophthalmology: *history of ophthalmology*, **697**

Antitrypsin deficiency, Corneal ulceration in a patient with α_1 antitrypsin deficiency, **653**

Apraclonidine, Influence of apraclonidine and pilocarpine alone and in combination on post laser trabeculoplasty pressure rise, **30**

Aqueous humour
- An antimicrobial effect associated with rabbit primary aqueous humour, **142**
- Mechanisms governing the passage of aqueous humour through the trabecular meshwork: *editorial*, **596**

Argon laser photocoagulation, Argon laser photocoagulation of fluorescein stained retina – an unrecognised hazard?, **476**

Argon laser suture lysis, Argon laser suture lysis with different suture materials, **390**

Arterial blood pressure, Regulation of ocular blood flow during increases of arterial blood pressure, **461**

Artificial eyes, The history of artificial eyes: *history of ophthalmology*, **222**

Aspergillus niger, *Aspergillus niger* as an unusual cause of scleritis and endophthalmitis, **584**

Autoimmunity, Retroviruses – a clue to autoimmunity? *editorial*, **161**

Automated perimetry, Pattern electroretinogram and automated perimetry in patients with glaucoma and ocular hypertension, **359**

Bacillus cereus, *Bacillus cereus* endophthalmitis: *perspective*, **577**

Bacteria, An antimicrobial effect associated with rabbit primary aqueous humour, **142**

Basal laminar drusen, Visual function and course of basal laminar drusen combined with vitelliform macular detachment, **437**

BCP 54, Genetic and clinical determinants for the T cell mediated immune response against the cornea specific protein BCP 54, **298**

Behçet's disease, S-antigen specific T cell clones from a patient with Behçet's disease, **927**

Best vitelliform macular dystrophy, Dark adaptation in patients with Best vitelliform macular dystrophy, **430**

Beta blockers, Effect of topical ß blockers on corneal epithelial wound healing in the rabbit, **377**

Bilateral angle closure glaucoma, Bilateral angle closure glaucoma and accelerated cataract formation in a patient with AIDS, **656**

Bilateral paraneoplastic melanocytic proliferation, Proliferative activity in bilateral paraneoplastic melanocytic proliferation and bilateral uveal melanoma, **483**

Bimedial rectus recession, 8 mm Bimedial rectus recession in infantile esotropia of 80-90 prism dioptres, **842**

Biometry, Biometry in X linked megalocornea: pathognomonic findings, **781**

Blepharochalasis, Localised unilateral blepharochalasis, **881**

Blepharoptosis, Changing concepts in ptosis surgery: *editorial*, **162**

Blindness
- Aetiology of severe visual impairment and blindness in microphthalmos, **332**
- Blindness in the developing world: *letter*, **159**
- Blindness from uveitis in a hospital population in Sierra Leone, **690**
- Distribution and aetiology of blindness and visual impairment in mesoendemic onchocercal communities, Kaduna State, Nigeria, **8**
- Epidemiology of blindness and visual impairment in the kingdom of Tonga, **344**
- Loss of vision before ophthalmic referral in blind and partially sighted diabetics in Bristol, **741**
- Prevalence of blindness and low vision of people over 30 years in the Wenchi district, Ghana, in relation to eye care programmes, **275**
- Prevention of blindness: *letter*, **731**
- Registration of blind and partially sighted people: *editorial*, **733**
- Unrecognised and unregistered visual impairment, **736**

Blink reflex, An unusual form of blink reflex induced by pressing on a frontal burr hole, **503**

Blood flow
- Ocular blood flow measurement: *perspective*, **939**
- Ocular pulse measurements to assess pulsatile blood flow in carotid artery disease, **321**
- Regional retinal blood flow reduction following half fundus photocoagulation treatment, **335**
- What is the use of ocular blood flow measurements? *editorial*, **326**

'Blow out' orbital fracture, Prediction of enophthalmos by computed tomography after 'blow out' orbital fracture, **618**

Book reviews
- Berson FG. Basic ophthalmology for medical students and primary care residents, **511**
- Brightbill FS, *editor*. Corneal surgery, theory, technique and tissue, 2nd ed, **422**

Bungee jumping
Bungee jumping and intraocular haemorrhage, **236**
Ocular complications associated with bungee jumping, **234**: *letter*, **948**
Ophthalmic complications after bungee jumping: *letter*, **239**

Capillary basement membrane thickening, Diabetic retinopathy: quantitative variation in capillary basement membrane thickening in arterial or venous environments, **133**

Capsulorhexis, A comparative study of the elastic properties of continuous tear curvilinear capsulorhexis versus capsulorhexis produced by radiofrequency endodiathermy, **392**

Carbohydrate deficient glycoprotein syndrome type I, Carbohydrate deficient glycoprotein syndrome type I: ophthalmic aspects in four Sicilian patients, **845**

Carotid artery disease, Ocular pulse measurements to assess pulsatile blood flow in carotid artery disease, **321**

Cataract
Bilateral angle closure glaucoma and accelerated cataract formation in a patient with AIDS, **656**
Changes in anterior chamber flare and cells following cataract surgery, **91**
Couching for cataract – the suttiah's tale: *history of ophthalmology*, **576**
Crystalline nature of iridescent particles in hypermature cataracts, **581**
ECCE for advanced cataracts in Africa: *letter*, **511**
Increased prevalence of disciform macular degeneration after cataract extraction with implantation of an intraocular lens, **441**
Infectious endophthalmitis after cataract surgery: *perspective*, **227**: *letter*, **948**
Intraocular adrenaline maintains mydriasis during cataract surgery, **95**
Lack of effect of preoperative norfloxacin on bacterial contamination of anterior chamber aspirates after cataract surgery, **772**
Suppurative keratitis caused by *Streptococcus pneumoniae* after cataract surgery, **847**
Survey of the complications associated with current practice of cataract surgery under local anaesthesia: *letter*, **510**
Ultraviolet radiation and cataract, **478**
Vision related daily life problems in patients waiting for a cataract extraction, **608**

Cavernous haemangioma, Ocular melanocytosis and cavernous haemangioma of the optic disc, **73**

Cell death, Selective cell death in glaucoma: does it really occur: *editorial*, **809**: *perspective*, **875**: *commentary*, **879**

Cellulitis, *Pseudomonas* conjunctival ulcer and secondary orbital cellulitis in a patient with AIDS, **72**

Central retinal vessels
Electroretinogram b/a wave ratio improvement in central retinal vein obstruction, **191**
Shape of the neuroretinal rim and position of the central retinal vessels in glaucoma, **99**

Central serous retinopathy, Central serous retinopathy in systemic lupus erythematosus: a manifestation of the disease or of its treatment? *letter*, **420**

Chlamydial ophthalmia, The treatment and follow up of adult chlamydial ophthalmia, **206**

Chloramphenicol, Fungal keratitis caused by *Scopulariopsis brevicaulis*: successful treatment with topical amphotericin B and chloramphenicol without the need for surgical debridement, **730**

Choriocarcinoma, Male choriocarcinoma with choroidal metastases, **155**

Choroid, choroidal
Distribution and characterisation of rat choroidal mast cells, **211**
Impact of enucleation versus plaque radiotherapy in the management of juxtapapillary choroidal melanoma on patient survival, **109**
Increased lipid peroxides and inflammatory parameters in the retina adjacent to choroidal melanoma, **130**
Indocyanine green enhanced diode laser photocoagulation of subretinal neovascular membranes: *letter*, **238**
Interferon alfa-2a modifies the course of subfoveal and juxtafoveal choroidal neovascularisation, **749**
Male choriocarcinoma with choroidal metastases, **155**
Multiple vortex vein varices masquerading as choroidal secondaries, **800**
Possibilities and limitations of radioimmunoscintigraphy and conventional diagnostic modalities in choroidal melanoma, **244**
Posterior scleritis with retinal vasculitis and choroidal and retinal infarction, **410**
Spontaneous regression of a choroidal metastasis from renal carcinoma: *letter*, **883**

Chromosome abnormalities
Rhodopsin mutations in a Scottish retinitis pigmentosa population, including a novel splice site mutation in intron four, **933**
Trisomy 4p and ocular defects, **415**

Ciliary body, Schwannoma of the ciliary body treated by block excision, **397**

Ciliary epithelium, Adenoma of the pigmented ciliary epithelium, **484**

Ciprofloxacin, Ocular penetration of topical ciprofloxacin and norfloxacin drops and their effect upon eyelid flora, **546**

Clenching the teeth, Elevation of the right ptotic eyelid with clenching the teeth, **496**

Cognitive visual dysfunction, Cognitive visual dysfunction: *perspective*, **723**

Computed tomography, Prediction of enophthalmos by computed tomography after 'blow out' orbital fracture, **618**

Computerised perimetry, Computerised perimetry – the emperor's new clothes? *editorial*, **513**

Cone dystrophy, X linked progressive cone dystrophy, **103**

Congenital hereditary endothelial dystrophy, Congenital hereditary endothelial dystrophy associated with nail hypoplasia, **77**

Conjunctiva, conjunctival
Conjunctival haemangiopericytoma, **497**
Conjunctival melanoma: *editorial*, **514**
Conjunctival melanoma after excision of a lentigo maligna melanoma in the ipsilateral eyelid skin, **317**
Melanotic lesions of the conjunctiva: *letter*, **592**
Orbital exenteration in 95 cases of primary conjunctival malignant melanoma, **520**
Prognostic factors in primary malignant melanoma of the conjunctiva: a clinicopathological study of 256 cases, **252**
Pterygium excision with conjunctival autografting: *letter*, **421**

Conjunctivalisation, Ectopic conjunctivalisation in Stevens-Johnson syndrome, **727**

Contact lenses
Extended wear soft contact lenses induce corneal epithelial changes, **907**
Primary meningococcal keratoconjunctivitis in an extended contact lenses wearer: *letter*, **731**

Contrast sensitivity testing, Contrast sensitivity testing in clinical practice: *perspective*, **795**

Cornea, corneal
